

We know this is The Best Wrap on the Market

That's why we call it
POWER CO-EX

*The high performance
Balewrap Film*

Superior Quality Balewrapping You Can Trust

When you wrap for silage you need to be sure that later in the year when the bale is opened, you will still have the good quality silage which is essential for healthy, productive livestock. You need a stretchfilm you can rely on. A stretchfilm you can trust to perform at its best.

You need Power Co. Ex Balewrap -

a high performance film which is environmentally friendly, competitively priced and produced by Trioplast AB of Sweden, one of Europe's largest producers of polyethylene film. A film that will wrap a bale as airtight as possible, secure and long lasting.

The advantages of Power Co. Ex Balewrap

- All-round stretch and greater elasticity give tightly wrapped bales for lasting protection.
- Extra strength helps prevent punctures and tears.
- Strong tack to seal forage quality.
- Weatherproof and UV stabilised against harmful sunlight.
- Can be used with all types of balewrappers
- Power Co. Ex is available nationwide
